DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's amendment filed on April 3, 2006. The objections to the drawings and specification are withdrawn in view of applicant's amendments. The 35 U.S.C. 112, second paragraph rejections are withdrawn in view of applicant's amendments. All previous prior art rejections are withdrawn.

Election/Restrictions

Claims 1 and 12 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3, 6, 14, and 17, directed to Species II (Fig. 5) are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971).. See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Petty on July 6, 2006.

The application has been amended as follows:

Rewrite claim 6 as follows:

The attachment mechanism of claim 1, wherein each engagement piece is a slider having a set of pads, said pads on said opposite legs sliding along said instrument away from each other in order to maintain said component said distance away from said centerline of said instrument.

Allowable Subject Matter

Claims 1-20 are allowed.

Reasons for Allowance

The following is a statement of reasons for the indication of allowable subject matter:

Regarding independent claims 1 and 12, the prior art does not disclose or suggest orienting engagement pieces of an attachment mechanism to their corresponding legs to position the engagement pieces to contact an instrument at contact points in order that a component is located at a known and constant distance from the centerline of the instrument regardless of the diameter of the instrument.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alex B. Toy whose telephone number is (571) 272-1953. The examiner can normally be reached on Monday through Friday, 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C.M. Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
